

Blitz Storm™ Mechanics Length Drills

- Innovative stepped point geometry immediately digs in and starts cutting without center punch or pilot hole
- Won't walk on curved or flat surfaces
- Radial chip thinning greatly reduces heat, prolongs tool life
- Enlarge holes without damaging the point
- Used in wide range of materials – steels, cast iron, stainless steel, sheet metal, non-ferrous materials
- Reduced entry and exit burrs
- Sturdy Mechanics Length with 3 flats on shank sizes 3/16"-1/2" for no slipping in the drill chuck
- 25/64"-1/2" has 3/8" reduced shank with flats
- Ideal for both hand and machine drilling
- M-2 High Speed Steel
- Black and Gold surface treatment increases lubricity and reduces friction
